Pengadu Menyatakan :

REPOT DITAIIP SENDIRI OLEH PENGADU DALAM SISTEM IPRS :

I Guna [REDACTED] received a phone call from my Personal Assistant (PA) [REDACTED] when I was at home [REDACTED]. She told me that her nephew got an article from his mother about myself in a webpage named worsthomewrecker.com where it condemns and accused me of cheating people especially women and abusive people as well been jailed before. The copy of the article is given in this report. We found out that the domain is registered in Panama and the article been posted on September 2019. And what we find out from this website is that there are a lot of other articles about other people and the content is all about shaming and negative remarks of the individual so the main purpose is mainly to disgrace, humiliate the individual, the other intention is to hack people money and to rob people money using the fear technology so that they can con people into this act.

Therefore we took immediate action and we brought this to our Google workspace partner and asked them to verify as to who this people are and where are they located. We received response from Google workspace stating that these are scammers/hackers who does this for a living. The other reason is they hide themselves in a country Panama so their identity is not traceable by normal individual. We have also found out that in their website which we have given proof to police as they doing this as a way of life by conning people with this kind of defamation.

So therefore our business partner Google workspace and our website provider has advised us to make a policy report to protect our identity and also business image as our how firm, Wealth Street Sdn Bhd deals business globally. In addition to this they are also advised us to report to the Multimedia Super Corridor (MDEC) which governs and protect the individual by acting base on jurisdiction empowerment.

The main purpose we are doing this report is to protect myself from all the accusation, defamation, humiliation so that all our clients and also all our future business partners are aware that this is totally not true about myself in the manner we conduct our business.

All the accusation and defamation is not true at all.
